

Make a poppy

What you'll need

- Scissors
- Glue and sticky tape
- Red pencils or crayons
- Safety pin (for poppy brooch)
- Green pipe cleaner (for poppies with stems)

Instructions

1. Colour the poppy pieces red.
2. Cut out the poppy pieces as instructed.
3. Stick the front poppy petals to the back poppy piece with the red sides facing up.

FRONT PETALS

1. Colour in red.
2. Cut out around outside.
3. Secure this piece to the back poppy piece once both pieces are ready.

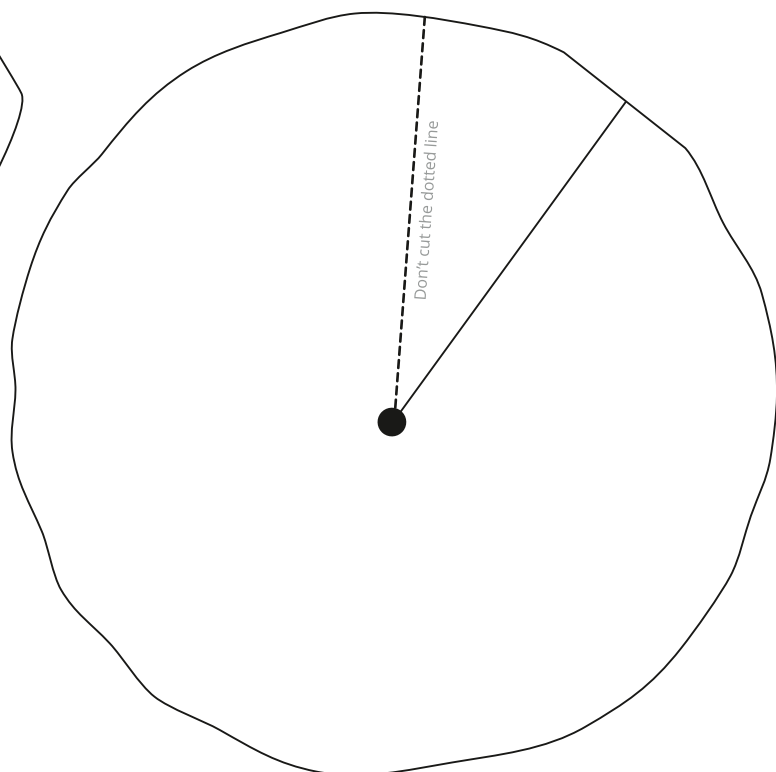

Poppy brooch

To create a poppy brooch, tape a safety pin to the back of your completed poppy.

Poppy with stem

1. Fold a green pipe cleaner about 1 cm from one end.
2. Stick the short folded section of the pipe cleaner to the underside of your completed poppy.

Bonus idea: Plant poppies with stems in a tray of soil, or outdoors, to create a poppy field.

BACK POPPY PIECE

1. Colour in red.
2. Cut out along solid lines.
3. Bring the straight cut line to the dotted line and secure with glue or sticky tape.
